

SECURITY SCREWS

Materials: Steel, 18-8 Stainless Steel

Finishes: Zinc Plated

We offer six different styles of tamper-resistant screws:

-  Snake Eyes Spanners
-  Phillips Pin-Head
-  One-Ways
-  Socket Pin-Heads
-  Tri-Wing
-  Torx Security

Head Styles

Pan Head

Truss Head

Flat Head

Oval Head

Round Head

Button Head

Thread Styles

Tamper-resistant screws comply to the same thread size and length as standard screws and use the same nomenclature.

Note: Sheet Metal Screws can be substituted for Wood or Metal Screws.

Sheet Metal Screws

Machines Screws

Matching Tools

All screws with the exception of One-Ways, require special matching tools for easy insertion and removal.

Note: Spanner and Pin-Head Tamper-Resistant Tools are NOT guaranteed against overtorque, misuse, breakage or wear and are not refundable.

One-Ways are easily installed with a standard screw driver. Removal may be possible with the "Un-Do-It" tools.
